2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. Continuation of 4C and 4E:

The amendment to the claims filed 1/2/07 is not completely compliant with 37 CFR 1.121(c) because of the following reasons:

Certain added and/or deleted texts, compared to the amended claims last entered on 2/28/05, are not marked to show changes made.

In claim 1, the phrase "in order" is changed to "in order in order" in line 3, but the change is not marked although it is not readily apparent as to why the change is necessary in the context of claim 1.

The word "bound" is changed to "bounded" in claim 5, line 3, but the added portion is not marked. Furthermore, the status identifier of the claim should have been changed to "currently amended" from "previously presented."

In claim 14, a comma "," is added after the phrase "per cm2," but it is not marked.

In claim 23, the last line, the phrase "said computer" is changed to "a computer," but the change is not marked.

Lastly, in claim 28, the phrase "metallic_precipitate" is changed to "metallic precipitate," but the change is not marked. Furthermore, the status identifier of the claim should have been changed to "currently amended" from "previously presented."

Applicant is urged to contact the examiner prior to responding to this letter should there be any questions related to the notice.
